

Those people are breaking our fire wall, we have very less time, hacking of the server will not be good for the company, if our fire wall is saved then understand that our company is finished sir, our eye is locked, I am not able to do anything. Sir, even I am not able to do anything, the whole system has hung. Sir, what will we do now? Don't worry, we still have a trump card. Trump, now it's your turn [music] I have found out their IP address, total is 325, those people Very smart, it will take us some time to do the counter part, do this, you all go home, I will fix everything tomorrow, guy, you all can go home Ts [Music] P Framework Protected Only Std What's the matter I I will never be able to understand how you do all this. They were all very good hackers. You defeated everyone. It is a very easy task for me. Well, my work is done. Now I take my sleep. Okay sir, Dhruv, who does what work? I do n't know if he is there, he is very talented. Chairman Sir has made a lot of efforts and hired him. All the services of the company as well as the courses of CC devices have been developed by him. In reality, he is nothing, he is the second number hacker in the world. Hacker Boat, you have defeated that too. Help Through is number one, so why are you wasting time here in Working Ars?

Who are you? This is the friend. Chairman Sir's daughter has just returned from abroad. Chairman sir is in the hospital, hence from today onwards he is the active chairman of the company. Why are you wasting your time here? Do you take salary for this also? Ma'am, I tell you that we are not needed right now, please forgive me today, I will fix the entire office, I will see. Who comes here to pass the time [Music] Sir, haven't we done anything to save this company yesterday and this is peace with us, she has just come from abroad, she does n't know anything about the company, she is just showing her power sir. Wait, is he still sleeping? We should tell him about the new chairman. Do n't mess with people like this, otherwise the company will be destroyed. Everyone, listen carefully.

From today onwards, you will not treat this company like just a company. Understand that this company is everything for you and I should see every person working here only. I understood that if you pay attention to these things then how will you work? No, I will never argue with me like this, what did you do in this limited company? Addition is stop crying You are fard Karika yes ma'am, later ask for the money for its items, there is a lot of money in our company ok [music] Sandwich, this is your office, not your home, you come to work, do you come to eat sandwich, no ma'am, you are fard, wow shameless There is no limit, people even come to sleep here in the office. Good morning, you both have had enough sleep. Now what will you do after knowing that you are afraid, I am afraid, why ca n't I fire you, no but enough, what is the work here?

Sorry ma'am, I do n't know, you don't know, you work in a company, what is your monthly salary, I don't remember the amount but some around 10 lakhs, you are sleeping comfortably here with this much salary, do you think we are crazy, what are you doing after all? What are you, ma'am, he has been hired in our company through his connections, so I don't know anything about it. You are the Chief Engineer here and yet you are sleeping. I was working all night today, that's why. Saya, you were working here the whole night, it does not mean that you are allowed to sleep during the day, you should work during the day also, what is there to laugh about, get out now ok Dhruv, if anyone has a problem with his leaving then it is him. Can also go with this, you

guys do your work, let's go [praise] An Grateful Ma'am, our chief engineer was our chief engineer,

firing him like this, what does it mean that a person who is sleeping instead of working here, such people are allowed to work here. any rights No, yes father, son, you left so soon, I forgot to tell you a very important thing, a boy named Thru works in our company, don't say anything to him, Thru has taken a lot of efforts to hire him, he is currently working on our server architecture and VR. That boy is in charge of development. He is very cruel for our company. Okay, he has done PhD from Stanford University and he is among the top 10 hackers in the world. Papa,

what is he? Remember one thing, there is another person in our company and he is of no use, he has joined our company just through connections, he is of no use, don't worry about him, come ready- made when I am fine. Don't worry, Papa, I will take care of everything. Papa, anyway, I was thinking of throwing him out. Now there is no need to worry, Ma'am, but what to do with that other smoker, he is very good looking and talented too, he is much better than that one. So you have already found a guy for yourself. System server is crushed again? [Music] I got feedback from our customer that there is some problem in the system. When we inspected, we found out that someone has hacked our system. Lia, this has become a big problem, if there is a problem then fix it. What are you taking money for? But ma'am, but have you fired all the people who used to fix the servers from their job?

We don't have anyone for this thing. To How did you hire these people to fix it? What is the situation now? Ma'am, we are getting a lot of complaints from the customers. Hello, sorry sir, the company's server is down, so we are trying to fix it. Now what should we do? We need some help right now. We have to do this otherwise it may affect our stock prices. I have a way. Listen, I am stuck in a big problem. Our company's server is down. No one is able to handle this problem. What can I do? [Music] Ho who is it now I don't have time to explain all this can we meet Lucky I am not far from your location I am coming Lucky I am not far from your location I am coming Heard this voice a little I ca n't hear it. Yes, it seems like it's someone's voice from our office. Let it go, don't think about it. I'll go to the room and come back. Keep quiet, there's nothing to be ashamed of, ma'am. All the best. [Music] Ek Kal Lazy Hacker is the username of 69 Proof Now I can take all the credit for it 11 So these two have neither met each other nor know each other Now I can take all the credit for it [Music] Thank God If I woo her then her entire company will be mine [Music] Ma'am what Bumblebee No no sorry sorry Actually I came here to meet a girl, we just talk on chat so I thought sorry Sorry wait wait wait my only username is bumblebee you are 69 lakhs I did not think that we would meet each other like this let me tell you one thing yes say no we are in the same company right now so we use the same name which we use in the company Of course we do, but I never thought that we both would meet while working in my company, but you are very talented, why are you hiding your talent like this, I mean, a person like you is working in our company.

I should have known this, right? You know that I don't believe in showing off too much. Okay, listen, the company server has been hacked. At this time, that problem should be our priority. You can solve it. Oh, of course, it is very easy for me. Hey that Kaman [Music] He should have

come by now [Music] I am leaving You have solved such a difficult problem so easily Wait ma'am, we have just got the news The apple you had an eye on Had asked me to keep him, he has done the job in this company, has he resigned? Itech has fired him from the job today itself. It seems that God is also on my side. Chairman of Itech would not have any idea how big his daughter has done. I have done a loss but ma'am our company is smaller than Itek so will Dhruv accept our offer I can do anything to bring Dhruv to this company even if I have to offer myself for him I will offer him this by bringing into the company Don't stay here, come to this company, you yourself will understand why he is important for us, do the work, get the car ready, I will go to pick it up myself, yes wait, what are you doing here till now, what should I let you take from it, now I am yours. It doesn't work for me. Do you have a problem with me? Off course, talk properly. Now who are you?

Who am I? I am handling it. After leaving your company immediately, our server crashed. Because of you, our company suffered a lot of loss, I think. all this Have you done this intentionally, did the server get cached because of me? Listen, stop doing this drama, understand that you are the only one in the company who can do this and when you were fired from the company, the server was supposed to crash. Such a coincidence happens only in films. Idiot security, what do you want? Tell me the truth, have you done anything with the server? If you don't accept this, I will hand you over to the police, then keep serving the punishment in jail and even after coming out of jail. You will be of no use to me, I will recover from you all the loss I have suffered because of you and yes I will make sure that no one hires you. Know the truth and listen to me. People like you feel the same as you. It's true that you want to arrest me, do it, let's see who wins in the end. You think yourself very smart, don't you, dear ma'am, we should teach you a lesson now. You used to work for our company, that's why I was silent till now, but No now, convey this to everyone that our company and no company related to us will hire you. Listen, now get out of here, now I am very curious, does your father know that you fired me from the company, now you are fired from the company. To do this, we will have to take permission from the Chairman. Who do you think you are?

Okay, good luck with the company, enough of your nonsense, hand it over to the police [Music] Do n't wait [Music] [Applause] Wait will go I know you Radhika Shah, your company is our company in VR industry, what are you doing here, do you have any problem, I remember you gifted me flyers in college, look, don't miss me, it's been a long time, friend. And why are you creating so much drama here, now Dhruv does n't even work in your company, please don't say that this is how employees are treated in your company, ma'am, I think you have seen it. I am not giving it. Here two chairpersons are talking to each other. You don't know yet what he has done, that's why you are talking like this. What did I expel him from the company? To take revenge, he created a problem in the servers of my company. Due to this, my company has suffered a loss and if I am demanding compensation from it, then what is the problem in it? Kiara, have you even asked your father about Dhruv? Yes, you have asked, no, he has said that it is of no use. Our I have been hired through connections. I have come here through connections. The chairman said this about me. He has said that I can fire you. In fact, father wanted to fire you. If it is so, then there is nothing left to talk about.

There is no proof, you do not need to take their words seriously and if you join my company, you will never hear such disrespect again. What do you think Radhika and not only this. I am ready to give you 10 shares of my company and a much better salary than theirs. Shares of 10 shares and better than our company. You also know what you are saying. It is not about money. If you say, then job. Along with this, I am also ready to be your girlfriend, so if you say, along with my job, I am also ready to be your girlfriend, then Radhika, you have given your company a You worked very hard to reach here, that's why I respect you and that's why I am dismissing you. He is of no use to you. He has not come to our company on his own merit. My father himself has told me. Your father has said this. Yes, why would I lie, how can this be possible, I know that whatever his company is today is because of Dhruv, then why did he say this, okay, what is there in this, there is 3 crores, this is my entire year 's hard work, salary bonus. all included [Music] [Applause] And here is the key of the car, I have bought it from your company, what does it mean, it means that I am returning all the things given by your company to you and you should be happy now. I don't have any connection with MTech and anyway you do n't deserve all this. You should give all this.

Kira, is this how your Apple is treated in your company? Is this your code of conduct? Quiet. Dis point: First of all, this money and car are nothing compared to the amount of loss I have suffered, I can't even call it compensation and yes, you used to work in our company earlier and I don't have any proof against you right now, so I am telling you. I am leaving Radhika, let's go, my talk is not over yet, I do n't have any proof against you today that you tampered with the server, but the day I have even one proof, I will not think that you used to work in our company. or not me I will not leave you. Okay, yes, your company is a master of technology and our company is not comparable to them, perhaps we are not so strong, it does not matter, from today onwards I will work with your company, is it true yes? Now I will work with Matrix Solution. Hope I do n't get any proof against Ray. Kyra. I am sure that Dhruv did not cause any loss to your company but still whatever loss you have suffered will be covered by my company and we will pay for this. You consider the meeting as a company. Now let me show you how to run a company. Okay, I accept your challenge. Radhika. Let's go. I am feeling suffocated. Come on [applause] Let's leave. We should not waste our time on such people. We have been talking online for three years and I have never seen you so angry, so how come today? I don't usually talk like that, but how was he talking to you? I don't like anyone talking to you like that. Okay, sorry, I would have made you more angry. True, of course, I don't like someone talking to you like that. Come on, let's go now, we have very important work to do [Music] Hello Hello Mr. Aggarwal, I just want to tell you that I just told your daughter.

I have declared that I will leave your company behind in Via Technology, this can never happen, it can happen or not, only the result will tell me, that's all I have to say, OK bye Radhika is a very bright business woman. But my company is much ahead of his company in technology, then how does he have so much confidence in it? Hello father, Hello Kiara, you did not fire me, you did not fire me, no, father, I have fired only those people who are not working here at the right time. I have not fired any important person from the job, then why am I getting a call from Matrix Solution and that too only to tell that they have contacted us. Okay, he will compete, Papa. Some time ago, I had a small meeting with the CEO of Matric Solution, which means there was

some debate between you guys and because of that, he wants to compete with us, Papa. I admit that I was a little angry in the beginning. But I was not able to understand why she was supporting the boy who could not join our company on his own merit. She felt that she was hiring such a person whose coming would help her company and technology. from our company It would be better if you told her that that boy is of no use, I showed that apple in front of Radhika in its place and maybe because of this Radhika got hurt, that is why she called me, because of this she got hurt. It's done, she can't do anything for us. Good job Kiara, from now on you will handle the entire R department. Thank you Papa. Now let us show them why we are at the forefront in R and make sure that they are around us. Even if you don't reach, do n't worry Papa, we were better than him before and will remain better even now Sir, we have always been at the forefront in the beer industry, we can say this and technology is the identity of our business. Miss Kiara has just come from abroad. So would it be right to give the responsibility of the entire technology to Miss Kira?

If it was only Kira's responsibility then maybe I would not have taken the decision but I have already hired the best person for this work. You are talking about through, right? I believe that there can be no one better than him in the world and anyway Radhika is completely trapped in Kiara's plan and she has hired that useless person. Now let's see how her company will slowly fall down and we will always be ahead. We will continue to grow with those you have met now and our technical team is fine but some people are missing. If we have to protest in the state then we will have to hire some people. I have heard that some people have fired Apple to make efforts, why do n't we hire them. Hire Radhika Actually, tell the truth, I was also thinking, how similar are our thoughts these days, isn't it, I do one thing, I call her [music] I am here ma'am, I wanted to talk to you ma'am, there is no need to say it There is no one else here, you can call me by my name, it is not a habit, but you always call me Kyara, it is easy to say in chats, but in such a company, calling me Kyara is a bit new for me and on top of that, you You are so beautiful that I keep forgetting. I can't believe that I was talking to such a beautiful girl. Oh yes, I forgot to tell you. Papa has said that I will handle the R department from you, so I love you very much in that. You will get help, that butt has given the whole department in his hands, that means I will just have to impress him, don't worry, I will never leave you alone, I know you are the best, Dhruv Dhruv, we will have to hire new people in the department, you worry. Don't do it, I will take care of everything, that Dhruv had created the entire department himself and finally I have got a chance, I can manage the entire department as per my own ma'am, some of the employees of our VR department have resigned together, now we have no one left in the technical team. What is it, everyone has resigned together, but why ma'am, I have come to know from an employee that he has been offered a job from Matrix Solution, all this must be the work of that Dhruv only, ma'am. Now we don't have anyone in technical team, if any problem comes then how will we find its solution as long as I am here, you do n't need to take tension, really you can solve this problem, off course if it is about technical department. So I know some people who can help us.

Hey, whoever has to leave, let it go for a second, I will call my friends right now and come What happened, what will happen, all my friends agreed, yes, they told me. He has a little less experience but Dhruv is perfect for our company. I was actually worried about how we will create

a new team in such a short time. Thank you so much. Coming here from abroad was the best decision for me. This is our manager Neeraj. Pandey and the rest of the team, they will be our co-technical team, I have full confidence in them, together with them we will make Matrix Solution the best company in India. Thank you again come again no time. It is very less but if we have to leave behind in the I.T.C. core then we have to concentrate more. Don't worry ma'am you have it and I am completely confident that as long as we have it we will always be 10 steps ahead of them but at the moment we are very much ahead of them. Behind this, they have the advantage that they can make their product quickly and this will happen only when they improve their technology and I did the design and only I know it and if they keep developing that technology continuously then we will have more fun. We have the resources and expertise to rebuild the core program easily. We already know all the loop holes and bugs which we can solve. We will create the framework as soon as possible and I am sure within a few days we will be ahead of them [Music]] [laughter] [music] [music] There is no one else in the office except us, just you and your ex-girlfriend. By the way, you talk to me so formally. Ex- girlfriend, I remember when you were in college. Sent me flyers [Music] Half the college was crazy about you And I don't think I was the only one who sent them to you Anyway, didn't you accept them?

I do n't remember those flyers Neither reached me nor I remember I just Do you remember the one you sent me? You sent me three flowers, three sunflowers, I accept your proposal. How can you send sunflowers along with a confession to a girl, but never mind. I like this also very much [Music] Ha Maa, what happened to Papa, Mama, don't worry, I am coming right now, yes ok, after that I left college, I was working and saving money for Papa's treatment and I didn't want you to get entangled in all those things, but as soon as I started my own company, I searched for you a lot and then came to know that you were already working in immersion tech and if I had approached you then, I would have. Maybe you were wrong, friend Radhika, all this happened and I thought you had rejected me, that's why I called myself an ex-girlfriend, never mind, whatever happened, happened, now it's time, I should go home,

I'll leave, you I gave everything I earned to my previous company. I heard that you don't have a house, you are staying at a friend's place. Yes, no, I also live alone, so then where are my houses and [music] where are you from today onwards I will stay here. why am i your here I am the boss, I will not keep an eye on your work. Okay, which room is mine? Oh, one thing I forgot to tell you. Actually, there is only one bedroom in this whole house, so we both will have to sleep together. Who am I kidding? That is your bedroom. There is a lot of space in this house, let me show you your bedroom [music] What is this, what is this, this framework is very complicated, it will take us one more month, three days, three days, you have three days, I want the project completed in three days, the project can be done by anything. move on Just need it and if we hurry now then some problem may arise later. I don't care. I want the project completed in three days.

Just Dhruv, how is the work going? This project will be completed in three days, after that we will move ahead. This is what I expected from you, you can't do anything wrong. Yes Papa, how is the work going on in the project, don't worry, the work is going very smoothly, my health is much better than before, once I am completely I will recover and then I can come back to the office.

You are not recovered at the moment, I will not let you come to the office and do not worry about the project, the work is going very well and yes father, I have to give you a good news too but that is me. I will tell you only after you recover. Okay, okay, now I am desperately waiting for that good news. Okay, Baba, I am keeping it by Dhruv. When this project is completed, then I will give you the credit of this entire project in front of Papa. I will give it, you deserve it and whatever you want, you can tell me, you know what I want, I just want you, there are people here, when the project is over, you will get what you want, or should I say, you will get it, okay, I will leave. Ha [Music] You are up, come eat [Music] What are you looking at like this, don't worry, you have a lot of time to see me, eat well, you have a lot of work to do, after that, well, when the project is over, then I a surprise for you I will tell you, what are you doing, I asked you that the entire structure is ready, but you are not able to figure it out, that is why I told you to listen to me, if you do not complete the work before the deadline, I will throw you out of the company,

I understand. I have not talked like this even once in a year. I used to talk like a gentleman. How have you changed so much? You can call me by my name, that is not a habit, but you always call me Gara. Chat It is easy to say but calling Kyara in such a company is a bit new for me, you are really Dhruv, isn't it Kyara, what message have you sent me, I am you doubting me, now you do n't love me, no, there is no such thing. It was just about work, look how many times have I told you, don't take tension, I am always with you and I can ask you any problem, it's good that I had hacked his phone, if the message is not coming then I don't know what went wrong today. It would have happened if he had known the truth. No, I will not let it happen. Okay, you sit, I have a lot of work, I am coming. Okay, yes, maybe I am overthinking. You will like my surprise. Ma'am, Immerse Tak's virtual reality project should be finalized. And they are ready to launch. Are they thinking of going out of the market soon? Is it so soon? Yes, and they are hosting a success party. They need more investors. They want to increase their distribution.

I do n't know, he just wants first mover advantage. If his plan becomes successful, it can create a big problem for us. I know, but guys, I have a good news. Our project has been completed. Really, we are from the beginning in this project. They have always been ahead and their project is going to be completed soon and they are also going to have lunch and this is very good news for us. How do you remember when I came here, what did I say, don't worry ma'am. You have it and I am completely confident that as long as we have it, we would always be one step ahead of them, but at the moment we are far behind, they have the advantage, they can make their product quickly and it will happen when they improve their technology and that design, I have just done it.

And if they keep developing that technology continuously then I don't understand that you have created that technology, you have designed it, you have developed it and if they keep developing it continuously then they will progress. But there is no need for us to worry, you understand it yourself, okay sir, what you are saying then it must be right, the entire technical team has worked very hard for this entire project. Give three days leave to the entire technical team and declare the IPO. Do we yes mam Dhruv let's celebrate this moment today let's have a drink really I thought you have stopped drinking anyway you remain conscious after drinking what nonsense I am much better than you I drink, I do, Dhruv, I'm not drunk, I can still walk, yes,

I know [music] Do you still like me, yes, I don't want to be your ex-girlfriend Last time you took the initiative This time I will take the initiative [music] and he is celebrating here Na yes I don't tell him I want to surprise him We have been talking for three years and now three years Later I will finally propose you Today I am very happy, by the way, you are looking very beautiful today, Tootie Tari Maa, Oh really, you look much better than that Kyara, I have to waste so much time in pursuing her,

I have to take all the initiative. So why don't you leave him, friend, he is very rich, he has a lot of money, once all his and his father's money becomes mine, his company becomes mine, then we both will enjoy a lot, are you listening, if so. Is Neither will I wait for you [praise] [music] You got up, how are you looking, I don't need to hide now, I have seen everything yesterday, come on, tell me how I am looking, now get up quickly, take a bath, I have taken your clothes. Also ready and Param, we are going to a reception. Hey Kiara, why are you sitting here? I have been looking for you for so long. We are in a public place. Don't call me by my name. What happened, have I done something wrong? Are you angry? Hey. Really you look much better than that Kyara, I have to waste so much time chasing her, I have to take all the initiative, so why don't you leave her, friend, she is very rich, she has a lot of money, once she and her father All the money should be mine, their company should be mine, then we both can enjoy a lot. If it is so, then I will not wait, I don't want to talk anything at the moment until our project is launched properly, I should sit quietly, ok, okay.

I do not know These two of you are so poor, why did we come here, or did we come from the same region as you, you joke well, our company is launching such technology which is not even available in the market till now and do you know under whom this project was? I handled everything from my designing to the finalization, hence we will be the ones who will take the investors. Don't tell me that you have also come here for the investors. Is it a coincidence? No, Radhika, I am from Tech along with us. Also, the project has been completed. There is no comparison of your company with Ishia Tech. We have not completed any last minute project like you and I am sure that your product must be somewhat defective, hence after competing with us, I am wondering whose product is defective, time will tell, ok, then why are you calling at this time, what has crashed, has the system crashed, what happened, nothing, I will come right now, now you will do what I say. I told you, Radhika, that their system will be crushed. It seems that there is a problem in your company's system again. When your company's system is so weak, then how do you manage the virtual system? I do n't need to ask you. Problem solved, ok now I hang up the phone, I said I will fix everything Big D, what's the matter for you, system crash is such a normal thing, mind your own business and I don't want to hear this from you. There is no need,

we had thrown you out of the company, just like you got the call and your system has been crushed, this is not a normal thing, in fact it is an urgent situation, if it is not resolved now then it will be a big problem in future. This can happen and your technical team can suffer huge losses. You don't need to give advice. You do n't even know the situation. Don't I know your entire system? I have developed it. Well, I am saying that I designed the entire system and server of the company. You stop talking nonsense. What, these people are our fraudsters. We should not

trust their words. Don't trust them. I am not forcing anything. Honey, now their The mouth doesn't look good, let's go from here honey, are you both in a relationship? Yes, do you have any problem? When I hired Thru, I had given him these terms that I will never leave him. I am not like you, I will never know Dhruv. Dungi, I feel like a curtain has fallen on your eyes, please man can't be trusted, they can't be trusted and not it depends on that person and I have full trust in you, I do n't know why but something is feeling strange, let us help you with our project. For talking to investors, you know I do n't need to tell you Miss Radhika, it's not that I do n't want to invest in your company, but Masiya Technology is a very big company, it has a great name and invest there. It is a matter of less risk for us, Mr. Chawla, think again, I am tired, you should experience our virtual reality system once, I am Shar, your opinion will change, O Mr. Chawla, you are here, O Miss, what is it, I am Miss Radhika. Do n't worry, I am ready to invest in your company. Brother Radhika, if you have come here for investors, then go back now. Atlist will save your time. I guarantee that as long as Mas Tech is here, no one will invest in Matric Solutions.

Out of all the investors present here, 90% of the investors are already ready to invest in our company. This competition has ended before it even started. Miss Kyra, I have already invested a lot of my money in your company and today I have invested all my money in R Technology's new technology, I hope that May your VR project be successful. Don't worry Mr. Chawla, whatever investment you have made will not be wasted. In fact, you will get a lot of profit from it. Miss Kaira, we have full faith in you, we all are with you. To Ishiya Tech, I am very happy. It felt good to see all your support. I assure you all that you will never regret this decision of yours. I am confident that you have invested as much as possible in our VR project. You have invested, you will get returns from it, it will never disappoint you, what are you doing, you have also come to support Matka, but we don't need to worry, let's meet again, bye, what are you now Mr. Avani, you are Kyra and them. Why don't you go to people? Now what do you want to talk to me? I just want to help you. Can Mr. Jawaani talk to you about something? Why don't I have a plan miss? Are you happy? Of course my father. He himself has said that currently there is a project in metric solution and earlier he used to work in our company, I myself pushed him out and now he has the same project. Do you think the product of his company can be better than our company? If the Chairman himself is saying this then I believe in it.

Now Mr. Arwani, why don't you go to Kyara and those people, now what do you have to talk to me, I just want to help you, help me, I know. have matriculation The solution needs funds for its expansion and if I am not wrong then that is why you have come here today and for this I can help you. I will make a betting agreement with you. Betting agreement is not possible. First you listen to me. You may change your mind, I will provide whatever funding you need for peer promotion. If your technology wins from the emmer tax then I will not take back even a single penny of mine and if it does not happen then I will do matriculation. I will take over the solution Mr. Advani We need huge funding or it is not a small amount I know the risk is yours If Mr. Arvani is keeping the deal then how can I refuse it Welcome everyone to Its Deal Special News today Marcia. Tech has launched its VR technology online. On the very first day of the launch, two crore people have downloaded it and started using it. Today I am feeling very proud of Kira. The project has been completed successfully without any support. Today he has told whose

daughter it is. He is very happy today. You do one thing, get the car ready, today I will also go to the office. Yes sir, matriculation solution is not even around us. Kyra, what do you think? Don't call me by my name in the office, how many times should I say ok ok ma'am, but Kyara ma'am, do you remember something?

You said that if this project is successful then I can get whatever I want, so do you remember, no problem. Now you will get only IO, nothing else and anyway, this is just the beginning. Do n't celebrate so early. We cannot lose to Matic Solution. Our technology is the best. Now you should say yes, ma'am. I have a news for you. The BR technology of Go Ahead Matrix Solution is much better than our expectation, in fact it is much better but their users are less. There is no comparison between our users and their users, so this is good news for us. Nice see what did I say come on let's have a drunk [__] no I don't need that but Matrix Solution did not have enough time to create a new technology and that too from scratch so this is how their Chief Engineer is very Well, Chief Engineer, he did n't know anything about Dhruv, he had come here also through connection, then how could it be like this? Yes, Papa, say congratulations, I am coming to the office right now, I want this moment for you. I want to spend with Dhru. Yes Papa, I am waiting for you sir, Dhru is coming to the office. There is a big problem. What is happening here sir, I don't know.

Our main survey has crashed and with it the VR project of both of us. If the surveys are not working, then what are you waiting for? Fix it quickly but the problem is with its core framework and I have not developed it. What do you mean, you have not done it, ma'am. This core program is ours. It has been developed before coming and it was developed by Dru Sane, Dru, what was that, I will tell you everything, the whole system has crashed, now what will you tell me and if there was a problem in the core program, then why did you not develop it earlier Kyara? Ma'am, due to this server crush, we will not only lose our old users but also our new users may also go and all these users may have to face a big problem, what is our new server. It got crushed, I understand, but how can our main server get crushed, I want the answer to this, ma'am, that Dhruv sir, you, me, you, don't come in between, you tell me, ma'am, the server that Dhruv sir had given us was filled with many boxes. And because of these boxes, our main server got damaged, we should not have started this work without fixing it, all this is happening because of you ma'am, our VR has also crashed completely, all the users are very worried. We may have to face a problem. What should we do now? If this continues like this then all my investors [Music] Hello Hello Mr.

Avani, I had invested such a huge amount trusting you and what am I seeing today if this continues like this? So I will never invest in you again. I understand what you are saying but first listen to me. I do n't want to hear anything. If you do n't solve this problem quickly then will I and any other company like your company? I will not let you invest. Hello Mr. Chawla, we are losing because of you. Is this the VR you have developed? This is your product on which you asked me to trust. It is better than this. I invest money in Matrix Solutions, I never thought. I thought that we will suffer such a huge loss due to Immersive Tax. Hello, now calm down, first my talk, I don't want to listen to you, I just want my money back, now we will meet directly in the court, hello, what is all this happening? All this is happening because of you, all this is happening

because of me, I have done all this for you, you fired everyone from the company, you gave everyone a deadline and asked them to do the work quickly, what did you say to me, now I have understood everything, now you blame me. Now you do n't like me, do you? How dare you talk to me like that.

When you were talking about me to that girl outside the bar that day, I was the same. Oh, you know everything, so what if you I know everything Throw me out of the company. Do you think I ca n't trust you? If Doya does n't work, we too won't work here. Without Atli, I too won't work here. Yes, we all won't work here. I'm not afraid of you. You are mistaken, it seems that the entire technical department has changed and all of them are my friends, I have hired them and if you talk too much then the company is watching and I will end everything. You were going to throw me out from here, what now? it happened to me I do n't understand how a person like you can be the backbone of this company. How did Papa even hire you? Kiara Papa, what condition have you created for my company? I am sorry Baba, I have not come here to listen to your sorry. What is this useless person doing here? You had said that you have fired him from the company and where is Dhruv?

Hey, what is going on here? I have fired that Dhruv, have you fired him? Papa, Papa, what? Happened Leave me, he is a very talented boy and I hired him with so much difficulty, he was the backbone of our company and what did you do, you fired him, wait a minute, where is he? I will apologize to him and bring him back into the company. In this way, I will keep her locked in the company. Papa, I am working for matriculation solution. You cannot be my daughter. Kiara, what have you done? You have ruined my company, ma'am sir, because of being a savar kash. We are receiving a lot of customer complaints due to this. Our main server has also been crushed due to which many people would have died in India. We will have to face this issue publicly. If we do not respond to the people then our company may be closed. Someone will have to take the blame for this. Don't even think of blaming me. I haven't done anything.

In fact, I have n't done anything. Yes, the whole core program is Dhruv's. I haven't done anything. Do n't lie. That's him. Was also in time company No, I had fired him, not him, he is the Dhruv with whom you used to talk online, this whole program is his, he sent all this solution, I was just his, I just stole his program, if you want to find it then you should find it from me. Had he not given this program, all this would not have happened today Kyara One minute you are not the same friend I used to talk to No I am not that one One minute you are not the same friend I used to talk to Yes I am not that one Kyara I am just yours mobile was hacked and i Till now I was just pretending, Kyra, that look is different, I am different, what are you doing here till now, what does it have to do with you, now I work for you, do you have a problem with me, off course, I don't know your whole system, I have developed it. What have you done? I am saying that I designed the entire system and server of the company.

You stop talking nonsense. These people are our fraudsters. We should not trust their words. Do n't trust me. Don't do it. I am not forcing anything. hu It means what have I done, what have I done, I couldn't recognize the person I liked the most, I even fired him from the company, what have I done, what have I done [Music] Manager If my company ends today If it happens then

make share, this also should not be avoided Sir Sir I am so sorry Sir Sir Sir Sir Hello Mister Avani thank you so much we have benefited a lot from the funding you gave us which money you forget about the betting agreement did you go? It is clearly written in the agreement that if our project wins from yours then you will not take even a single rupee from us. Thank you Avani ji, it was great to do business with you. Bye bye take care, tonight I want to give you a surprise. Don't say again that you are going to drink today because Dhru I really like you Dhru you yes Dhru look I don't want to talk to you and anyway you have talked a lot about me please go away listen To me, trust me, I have been cheated, that other guy hacked my phone, he pretended in front of me, I was still thinking that the Dhruv with whom I have been talking online for three years is the same Dhruv, I like you. I am Dhruv. Proposing to someone else's boyfriend in front of his girlfriend. The boyfriend who is crossing a line, heard it right, Ruff is my boyfriend, we have been living together for a long time and are going to get married soon. Are you going to get married or not, this ca n't happen, we both have been talking for three years now just stop it Ara you did not respect Dhruv at all you fired him from your company and I have seen how you were talking to him Dhruv, look,

I have always treated you very well, please help me. Look, Marcia Tech needs you a lot and you too have benefited a lot from our company. Please, for her sake, sir, the day your daughter fired me from the company and He said that our The company suffered a lot of loss, so on the same day I returned all the money I had earned from your company, even my newly purchased car. You can ask your daughter, she asked for compensation from me, I have made a mistake, then I do n't care. I knew it was a miss understanding, friend, if you have made a mistake then you have to compensate for it. I had designed the system with so many years of hard work and what did you do, how did you treat me and what did you accuse me of.

After leaving the job, I caused the system to crash. Do I look so cheap to you? Please, sorry sir, I ca n't help you, take care [praise] Everything is ruined, our company is completely finished, Papa, Papa, Papa, please our Please help Papa Papa, you are afraid that you should not help them because if you want to help them then you can do it. I do n't have any problem. No, I do n't want to have any relation with them and anyway. It's my fault, he himself is firing people from his company and they are facing the consequences of their action so just leave it. So can I drink or not?
